This document does not in any way create any license rights in HERE data and content and does not modify any of the terms and conditions of the DLA.

# 1. Purpose

In various countries, the legality of U-turns varies by administrative area. In some areas, U-turns are allowed except where there is a posted sign prohibiting the manoeuvre. For these situations, U-turn Restricted Driving Manoeuvres are included in the database.

In other administrative areas, the reverse is true. U-turns are not allowed unless there is a posted sign allowing it. In these areas Admin Wide Regulations are identified as relevant and Permitted Driving Manoeuvres are coded to indicate when the movement is allowed.
